Index of Subjects

Antibiotic resistance, plasmid-determined, in *Shigella flexneri* isolated in England and Wales between 1974 and 1978, 27

Bacteriocin, comparison of different methods for, typing of *Klebsiella* strains, 461
Bluetongue virus in a Nigerian dairy cattle herd. 1. Serological studies and correlation of virus activity to vector population, 177
Bordetella bronchiseptica, effect of various oral dose levels of a trimethoprim/sulphadiazine mixture on, infection and on the proliferation of trimethoprim-resistant faecal coliforms in pigs, 41
Bordetella pertussis isolation in general practice: 1977–79 whooping cough epidemic in West Glamorgan, 149
Bovine tuberculosis, epidemiological features of, in cattle herds in Great Britain, 159
Brazil, electrophoretic study of the genome of human rotaviruses from Rio de Janeiro, São Paulo and Pará, 117
Brucella antibodies, comparison of standard tube and microagglutination techniques for determining, 33
Brucellosis, comparison of radioimmunoassay with the complement-fixation test and the indirect haemolysis test in the field diagnosis of bovine, 67

Cerebrospinal fluid, drug resistance among *Escherichia coli* strains isolated from, 195
Citrobacter koseri (syn. *C. diversus*): biotype, serogroup and drug resistance patterns of 517 strains, 233
Complement-fixation test, hotting-up the, 127
Corynebacterium diphtheriae, the role of adherence in determining the site of infection by, 415
Coxsackie B, tests for, virus-specific IgM, 327
Coxsackievirus B, antibody capture radioimmunoassay for 4 and B5-specific IgM, 333

Drug resistance among *Escherichia coli* strains isolated from cerebrospinal fluid, 195

Equine influenza, studies with inactivated, vaccine. 1. Serological responses of ponies to graded doses of vaccine, 371
Equine influenza, studies with inactivated, vaccine. 2. Protection against experimental infection with influenza virus A/equine/Newmarket/79 (H3N8), 385
Ergocalciferol, the stability of, in rodenticidal baits, 253
Escherichia coli, drug resistance among, strains isolated from cerebrospinal fluid, 195
Escherichia coli, studies on enterotoxigenic, isolated from persons without diarrhoea in Western Australia, 99

First-aid dressings, contaminated: Report of a Working Party of the PHLS, 241

Hepatitis B, production of monoclonal antibodies to, surface and core antigens, and use in the detection of viral antigens in liver biopsies, 135
Hydatid disease in the Western Isles, 19

Infectious mononucleosis, rubella-specific IgM reactivity in sera from cases of, 407
Influenza A, A comparison of live and inactivated (H1N1) virus vaccines. 1. Short-term immunity, 351
Influenza A, A comparison of live and inactivated (H1N1) virus vaccines. 2. Long-term immunity, 361
Influenza A, recycling of H1N1, virus in man – a haemagglutinin antibody study, 397
Influenza B vaccine, a graded-dose study of inactivated, surface antigen, in volunteers: reactogenicity, antibody response and protection to challenge virus infection, 107

Klebsiella, comparison of different methods for bacteriocin typing of, strains, 461

Legionella pneumophila, aerosol infection of animals with strains of, of different virulence: comparison with intraperitoneal and intranasal routes of infection, 81
Legionella pneumophila, survival of virulent, in aerosols, 451

Malaysia, phage types of *Salmonella typhi* isolated in, over the 10-year period 1970–1979, 91
Measles, vaccination against rubella and: quantitative investigations of different policies, 259
Meningococcal disease in South Australia: incidence and serogroup distribution 1971–1980, 49
Monoclonal antibodies, production of, to hepatitis B surface and core antigens, and use in the detection of viral antigens in liver biopsies, 135
Mycoplasma mycoides, Immunogenic variation among the so-called LC strains of, subspecies *mycoides*, 141
Mycoplasma pneumoniae, a study of the specific IgM antibody response in, infection in man, 207

Nigerian, bluetongue virus in a, dairy cattle herd. 1. Serological studies and correlation of virus activity to vector population, 177
Nigeria, studies on well water and possible health risks in Katsina, 199

Otitis externa by *Pseudomonas aeruginosa* associated with whirlpools, 489

Plasmid pattern analysis of natural bacterial isolates and its epidemiological implication, 475
Pseudomonas aeruginosa, otitis externa by, associated with whirlpools, 489

Rotaviruses, electrophoretic study of the genome of human, from Rio de Janeiro, São Paulo and Pará, Brazil, 117
Rubella, screening for anti-, IgM *ad libitum*, 1
Rubella-specific IgM reactivity in sera from cases of infectious mononucleosis, 407
Rubella, vaccination against, and measles: quantitative investigations of different policies, 259

Salmonella, multiple plating from enrichment media as an aid to, isolation, 435
Salmonella montevideo infection in sheep and cattle in Scotland, 1970–81, 225
Salmonellas, plasmid-encoded trimethoprim resistance in, isolated in Britain between 1970 and 1981, 55
Salmonellas, the incidence and level of contamination of British fresh sausages and ingredients with, 213
Salmonella typhi, phage types of, isolated in Malaysia over the 10-year period 1970–1979, 91
Sausages, the incidence and level of contamination of British fresh, and ingredients with salmonellas, 213
Shigella flexneri, plasmid-determined antibiotic resistance in, isolated in England and Wales between 1974 and 1978, 27
South Australia, meningococcal disease in: incidence and serogroup distribution 1971–1980, 49
Streptococci, bacteriocin-like activity of group B and group C, of human and of animal origin, 7
Streptococci, the serotyping of hospital strains of, belonging to Lancefield group C and group G, 71
Swine influenza, sero-epizootiological study on, in a prefecture of Japan, 403

Toxocaral infection, seroepidemiological study on, in man by enzyme-linked immunosorbent assay, 61
Trimethoprim, effect of various oral dose levels of a trimethoprim/sulphadiazine mixture on *Bordetella bronchiseptica* infection and on the proliferation of, -resistant faecal coliforms in pigs, 41
Trimethoprim, plasmid-encoded, resistance in salmonellas isolated in Britain between 1970 and 1981, 55

Vaccination against rubella and measles: quantitative investigations of different policies, 259
Vaccine, studies with inactivated equine influenza. 1. Serological responses of ponies to graded doses of, 371
Vaccine, studies with inactivated equine influenza. 2. Protection against experimental infection with influenza virus A/equine/Newmarket/79 (H3N8), 385
Vaccines, comparison of live and inactivated influenza A(H1N1) virus. 1. Short-term immunity, 351
Vaccines, a comparison of live and inactivated influenza A(H1N1) virus. 2. Long-term immunity, 361

Water, studies on well, and possible health risks in Katsina, Nigeria, 199
Water, the bacteriological examination of drinking, 143
Western Australia, studies on enterotoxigenic *Escherichia coli* isolated from persons without diarrhoea in, 99
Whirlpools, otitis externa by *Pseudomonas aeruginosa* associated with, 489
Whooping cough, *Bordetella pertussis* isolation in general practice: 1977–79, epidemic in West Glamorgan, 149

Yersinia enterocolitica, characterization of, strains isolated from cattle, sheep and pigs in the United Kingdom, 425
